THE TRANSITION

Which door will you choose? RV GCR brings an opportunity for growth in a new direction. This is a time of decisions and transition.

1. Street Rate – also known as “International Rate”
2. Screen Rate – also known as “Back Bank Screen” and a pre-negotiated rate for the Structured Settlement
 - Requiring projects and oversight
 - Funds blocked for a negotiated window of time
3. Contract Rate – an amount you negotiate and based on the projects you propose
 - Increased oversight
 - Funds blocked for a negotiated window of time

STREET RATE

Walk into any bank, in any city that exchanges foreign currency and hand your cash over to the window teller. Depending on the amount shown on screen will determine if a Wealth Manager will be brought to manage this exchange of foreign currency.

1. *This rate will be on screen and online – on FOREX*
2. *No negotiating this rate, what you see is what you get*
3. You can however, negotiate with the bank any of the fees that they may charge
4. *May or may not require a trust be created*
5. Will not provide access to “Structured Settlement”
6. You will work with the bank managing this as an investment – or whatever you choose

SCREEN RATE

This rate is pre-negotiated by the Private Exchange Center providers (principals that have funded the private redemption and exchange centers for the past few years, together with the UST)

1. This rate will be on (BACK) screen and ONLY ACCESSED BY REQUEST
2. No negotiating this rate
 - You can negotiate terms: fees
3. Will almost certainly require a trust – (according to Shelton trust is required if the amount is over One Million)
4. Will provide access to “Structured Settlement” for a portion, or all of the amount you receive

CONTRACT RATE

There is an opportunity for professionals to seek and receive a rate that is not reflected by the amount of currency you exchange or any relativity to screen rate, based on the projects you plan to develop and provide.

1. You request this special **negotiated** “Contract Rate” with your Bio-Vision and Project Outline **together with A PROJECT BUDGET SUPPORTING THE AMOUNT YOU SEEK**
2. Will require a trust – (according to Shelton, a trust is required if the amount is over One Million dollars and ALWAYS required for a “Structured Settlement” which will ALWAYS be used for **Privately Negotiated Contract Rate**)
3. Depending on the currencies you exchange you may have this “Structured Settlement” for all or partial
4. Will have a much more stringent oversight and NDA, along with claw-back Terms

100% “Caps and Restrictions”

NO MATTER WHICH RATE YOU CHOOSE, there will be 100% caps and restrictions for a window of time, that may or may not be lessened.

That means, everything involving movement of your money will be supported, checked, cross-checked and managed by your team.

This team includes: Private Bankers, Trust Management, Legal Team, and anyone involved in protecting your asset and your legacy, your family and your future wealth.

Protection includes oversight on any action involving the movement of your money whether nationally or internationally. Expect to have a deep background check on each and every party involved in any deals you might like to pursue.

Restrictions might involve – you’re restricted from participating in any deal with this or that person – due to their history of unfortunate decisions.

Oversight Actions Taken By:

- By the Private Banker
 - By the “Project Review Team” assigned to keep an eye on your projects by the bank/UST
 - By the NSA – or whatever agency will be assigned to watch the Nouveau Riche RVer
 - By the Legal Branch of your bank – for liability issues both ways
- On your projects
 - On your contracts
 - On your purchases
 - On your expenditures
 - On your principal assignees – trustees, managers, beneficiaries, etc., on

The “*Transition*”
may entail taking
on the
responsibility
of that of a
“Legacy Trustee”
